

Meeting Minutes

Date	Agenda	Timestamp	Attendance
Week 1			
5 Jun 2025	• Introductions • Planned tasks for the next week ◦ Complete primers ◦ Access github classroom, jira • Completed project questionnaire	13:46 - 15:05 1h 18m 31s	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher
Week 2			
12 Jun 2025	• Delegated parts for project proposal (10%) • Planned to have 10min stand-up meetings starting from week 3 → 5pm Mon, Tues, Wed, Fri • Organised a client meeting on Friday, June 14 at 4 PM to discuss project expectations • Organised a meeting on 15 Jun 2025 12pm to delegate	13:41 - 14:53 1h 11m 54s	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher
13 Jun 2025	• Meeting with Kushagra (Client) • Project structure and what to expect • Organised weekly meetings with Kushagra on Fridays 3:15pm - 4:00pm	16:00 - 17:00	@Kathy Phan @Gobind Singh @Aqil

	Discussed plans for the project proposal and 10 pre-filled questions (maybe we can do on Sunday?)		Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher Kushagra Bhatia
15 Jun 2025	- Chose between APA or Harvard references - Discuss about frontend (mostly for preview?) - Is the backend a blackbox? → ask on friday - API for AI only? → keep API request as little as possible cause of cost and overload - Delegated part 3 of project proposal Action Items: - Project proposal deadline on saturday but meet and submit on thursday	12:00 - 12:36 35m 25s	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher
Week 3			
19 Jun 2025	- Assign members to tasks in Jira then add that into report - Submit Project Proposal but also send to client for checking → Moved to Friday for Kush to check		@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher

20 Jun 2025	Qs: • Does Kush want us to upload files on actual platforms or a template website? Use the chrome extension on our own template website? • Top 10 questions are answered by the user on registration. How do we register though do we need to make a standalone website for that? - Gobind • is it ok to use a file picker to upload files. Or if there's another way since Chrome browser security doesn't allow extensions to insert files. would he like to manually save the cover letters and resumes generated into the website account then use the "auto-apply" button to select that saved file (if the form allows it), instead of uploading again? - Samuel → • Naukri needs a phone number from india → will be provided by Kush • How are the resumes and cover letters stored? Right now its a AWS link Give our email id to test the chrome extension we might have issues with bots if we use the extension into linkedin, seek e.g. Chrome extension works on linkedIn but not on seek, indeed, glassdoor "One quick suggestion: please ensure error handling is included in cases where the user is not logged in or doesn't exist. Prompting the user to log in at the start of the flow will be important, as the extension relies on authenticated access to fetch resumes and preferences from  JobGen.AI .	15:30 - 16:00 16:00 - 16:30	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto left at 4 @Samuel Lim @Lachlan Butcher came at 4pm Kushagra Bhatia
------------------------	---	---	--

	Additionally, consider adding fallback logic for scenarios where resume retrieval fails or the form structure can't be detected." Need to ask about if we have the chrome extension for other platforms other than linkedin • Progress Check-in • Top 10 Pre-Filled Questions → DONE • Platform Analysis & Field Mapping → Seek first • API Integration → Resume, Cover Letter, Top 10 Questions • Extension Build Progress → text fields, dropdowns, file upload, Seek logic • Preview Screen & Logging → plan • Next Steps & Q&A		
21 Jun 2025	Impromptu meeting for proposal submission	9:00	@Kathy Phan @Lachlan Butcher @Lawrence Seeto
Week 4			
23 Jun 2025	Stand-up meeting! Start calling people's names Any other questions? Lawrence created a Canva board of the Indeed form questions. Looks great!	17:00-17:10	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim

			@Lachlan Butcher
24 Jun 2025	Stand-up meeting! Need to refactor content.js Finish by end of sprint 3 Jul 2025	17:00-17:15	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim - updated in chat @Lachlan Butcher
25 Jun 2025	Stand-up meeting! "guys, how does the api work again? like did he give us the apitoken?" - Samuel What is the question default?	17:00-17:20	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Samuel Lim @Lachlan Butcher
26 Jun 2025	Labs Check up with Hruday (tutor) Questions: "are we supposed to have the interface for the chrome extension as shown in your previous demo?" "Does the chrome extension already detect job listings in all platforms and we just need to implement the 'apply' and 'review' button?" "if so can we adjust the scope of work?" - Kathy	13:00-15:00	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim

	“right now the extension doesnt extract any job details. when we login to linkedin using those test accounts, would it work properly then? also How do we use those test accounts? dont we need the passwords” - Gobind		@Lachlan Butcher
27 Jun 2025	Client Meeting • Naukri does not have a review page but others do • Glassdoor uses Seek’s submission • Can call the API as much as we wants but not really	15:30-16:30	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher Kush
Week 5			
30 Jun 2025	Removed stand-up calls → Mon-Wed provide an update via teams message		
2 Jul 2025	Meet up for demo tomorrow • Showcase Canva → Lawrence • Explanation of the project, Jira, Meeting Minutes • Gobind’s interface for linkedIn → autofilled • Show refactoring files instead of codes • Sam → show that the API is working + template form • Aqil → simple unit test	17:00-18:10	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher

3 Jul 2025	Demo today Meet up at 9am to practice for the demo. After demo, we need to do a retrospective	9:00-9:30	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher
4 Jul 2025	Client meeting • show our progress • Focus on LinkedIn and Seek for easy apply and normal apply	15:45-16:30	@Kathy Phan @Gobind Singh @Lawrence Seeto @Samuel Lim @Lachlan Butcher Kush
Week 6			
7 Jul 2025	Meeting for sprint 2 • Lachlan figured out how to upload files with AWS S3 buckets!! For this week, finish easy apply completely for LinkedIn and Seek • Ask Kush if he has an API for finding apply buttons and stuff. • Ask about site permissions	20:00-21:20	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher

3 on linkedin, 3 seek

Combine branches into main - main priority

LinkedIn / Seek logic

- find 'apply' button or form structure
- most sites go to a sign up/log in page

Research how to get each users resume and store in S3 buckets/container. Each user gets an s3 bucket, resume is around 70mb. Our storage that stores the buckets has 5gb.

- Each bucket has its own permissions so each user gets an s3 bucket.
- In Seek, there's a limit of 10 resumes that could be stored. So we can't overwrite the resumes. Once there is 10, delete the oldest one and upload the newest (Queue, FIFO).

PRIORITY - COMBINE CODE, FINISH EASY
APPLY BY THE END OF THIS WEEK

Gobind - LinkedIn

Lawrence - Seek

Lachlan - upload files

Kathy - planning sprint 2, research apply button logic

Samuel - research upload files → how to upload many files to different buckets securely? **how to**

	delete files from AWS remotely? Aqil - Research test cases, Aqil said chrome has it own testing system		
10 Jul 2025	8pm meeting - for all of us to refactor Fixing merge conflicts	20:00-22:26	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim left at 20:55 @Lachlan Butcher
11 Jul 2025	SHOW EASY APPLY AND FILE UPLOAD TO KUSH Ask for help for normal apply THEN delegate sprint 2 Jira is still down Easy Apply	15:45 - 16:22 16:22 - 16:45 - Aqil and Sam left	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Samuel Lim @Lachlan Butcher Kush

Apply to Jobgether

40%

Work experience

Your title * **Software Engineer Intern**
Company **NAB**
Dates of employment **Aug 2023 – Feb 2025**
City --
Description --
Industry --

[Remove](#)

[Edit](#)

Your title * **Cafe Worker**

Optional: city, description, industry

Location (city)*

Mandatory: location(city)*

Apply to Jobgether

80%

Additional Questions

I authorize Jobgether to process my application data to assess my candidacy for this and other relevant positions, provide feedback, and share my information with potential employers. I understand that if I decline, my application will not be considered.*

☒ Yes

☐ No

Please share your annual salary expectations for this position in USD, or the USD equivalent to your local currency.*

Enter a decimal number between 0.0 and 9.9999998E12

Mandatory: USD salary (right now we have AUD so it put in 80000)

FINISH BY WEEK 8

KATHY

- after all this, we need to force apply if user clicks 'apply'
- else, this setup is for 'review' button
- someone do the buttons highlight (blue buttons!) & these questions to finalise

AQIL

- Log in to [JobGen.AI](#) → then connect with chrome extension

Combine backend and frontend for demo

LAWRENCE

- 3rd tab in chrome extension for 'application history' (e.g. last 5 applications) in a JSON file which links to the applications
- ASK KUSH → need to have access to an acc which allows us to see the user's details

GOBIND

Normal apply (LinkedIn)

- find the apply button for every website...
- If theres the words 'job/apply' in url or on website, display
- detect and autofill form

LACHLAN

Normal apply (Seek)

- find the apply button for every website...
- If theres the words 'job/apply' in url or on website, display
- detect and autofill form

SAMUEL

- Test cases?? Postman?

avoid sign up until the end but if we're forced, maybe user sign in google and use that info for sign up

hidden field → JOB_url in Indeed

Week 7			
15 Jul 2025	Impromptu Client meeting	9:00	@Lawrence Seeto
17 Jul 2025	Retrospective meeting B NEW: Go through everything you said you would try last retrospective and discuss how it went. Include that on the report. - for software quality → we can comment kush's code to show that its not our work Qs. - How should we store resumes in AWS? - How to connect the account from JobGen.AI to chrome extension? - Aqil - USD salary Week 7 - normal apply → find apply button on every website → fill out application form - Issue is in between apply button Week 8 → DEMO Testing for final demo - Unit testing - Component testing - User interface testing @Lachlan Butcher is working on the speech for demo 2	13:00 - 14:30	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto went doctors @Samuel Lim @Lachlan Butcher

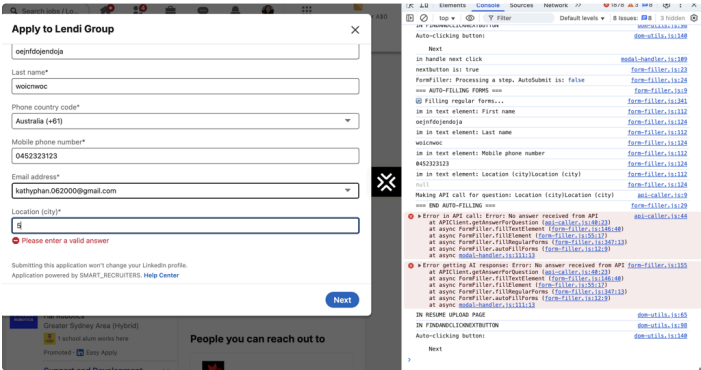

18 Jul 2025	Use jobgen.ai for demo to showcase user interface	15:45 - 16:52 Samuel stayed back for an extra 40 minutes to help the client debug the API.	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Samuel Lim @Lachlan Butcher
Week 8			
21 Jul 2025	Meeting with Kush Lachlan → logic for finding the apply button on every page for normal apply - login (get from API) → password logic Demo - No normal apply - Show Kush's website - login to chrome extension? - show 3rd tab job history for current session - frontend + backend - Show completed easy apply - buttons highlighted - Show normal apply → some login, some autofill - Show testing	19:00 - 20:40	@Kathy Phan @Gobind Singh @Aqil Tuan Razali at work but on mute @Lawrence Seeto left at 20:00 @Samuel Lim @Lachlan Butcher
22 Jul 2025	Meeting with Kush Discussed about APIs → does Kush have an API for detecting apply buttons on websites?	19:00 - 20:30	@Kathy Phan on mute @Gobind Singh

			@Lawrence Seeto @Samuel Lim @Lachlan Butcher
23 Jul 2025	Aqil completed a script for our Demo B	22:00 - 23:20	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher
24 Jul 2025	Rehearsal - Some merge clashes to resolve Demo → Great job! TODO: - fix apply button + resume upload clash - Retro - peer assessment - More statistics/background for Demo C - reference a few studies for research - e.g. how long people take to apply for applications? Sprint 3 - Normal Apply	10:00 - 12:30 13:00 - 14:00	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher

	◦ User registration → google sign in, sign in with resume, etc. ◦ Autofill should be ok ▪ complex questions via API e.g. where do you see yourself in 5 years? • Project Report (15%) & final peer assessment (8%) IN TWO WEEKS → due Week 10! • DO WE ATTEMPT SEEK IN 2 WEEKS maybe not		
25 Jul 2025	Client meeting • another tab for easy apply progress tab for user to see the application process → e.g. filling in user information, uploading resume (1 PERSON) → Lawrence • Clear Cookies automatically → Sam • Normal apply linkedIn (2 PEOPLE) → focus on <u>Amazon, Google</u>, etc. (sack Workday for now) ◦ Detect buttons → Lachlan ◦ Account creation → store password/username → Lachlan ◦ Auto fill + resume → Gobind ▪ too many fields that aren't in faq? • do seek easy apply + 10 resume limit (1 PERSON) → Aqil • Seek normal apply → (2 PEOPLE) ◦ Detect buttons → Lawrence ◦ Auto fill + resume → Sam • Fix easy apply → Kathy ◦ review → manually submit → WORKS on both single page & next ◦ apply single page → WORKS ◦ review → discard app at review page → WORKS	15:45 - 16:32	@Kathy Phan came at 15:57 @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher

- review → discard app prematurely → (loops) rn its a step count at 5..
- Finish by Monday and merge
- easy apply → review apply buttons, resume upload, application history

Looping cause it cant find location

Client requested a progress tab for application tracking on the user end

26 Jul 2025	Retro • did our retro and merged	16:00 - 17:20	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher
Week 9			
28 Jul 2025	Standup at 10pm!	22:00 - 23:07	@Kathy Phan

Questions for Kush

- does Kush want the icon48.png to move when clicked? content.js lines 140-159 (Kathy)

1. **LinkedIn**, Indeed, [Naukri.com](#), ~~Glassdoor~~, **Seek** (handle 10-CV limit → delete old CV if needed)

2. **Auto-fill the job application form, including:**

- **Personal information:** Name, Email, Phone, Address
- **Employment history:** Position title, Company name, Dates
- **Education**
- **Experience questions** (PM experience, etc.) → If not provided by [JobGen.AI](#) API, default
- **Expected salary** → Fetched from [JobGen.AI](#) API or fallback to AUD 120,000/year
- **Work rights, Availability, Preferred location** → via [JobGen.AI](#) API
- **Top 10 Pre-Filled Questions** → Teams will research and supply a list of the most common questions across **Seek**, **LinkedIn**, and ~~Indeed~~ → answers will be supplied by [JobGen.AI](#) API for each resume/cover letter.
 - Example fields: Location, Expected Salary, Visa Type, Nationality, Years of Experience, Availability, Preferred Work Location, Current Job Title, Current Employer, Notice Period.

3. **Handle file upload: Upload resume, Upload cover letter** (if provided) Seek-specific logic: If 10 CVs already uploaded, delete one to allow new upload.

4. **Handle psychometric & scenario questions:**

- **Likert scales** → default to neutral/slightly positive profile.
- Scenario-based questions → fetch template answers via [JobGen.AI](#) API or use pre-defined set.

@Gobind

Singh @Aqil

Tuan Razali

left at 23:00

@Samuel

Lim

@Lachlan

Butcher

	5. Show a preview screen before submission: • Show user all autofilled data and uploaded files. • Allow user to edit before final submission. 6. Simulate form submission: • Trigger “Apply” / “Submit” button click. • Log the application in Chrome Extension (optional).		
29 Jul 2025	Standup at 10pm! • Gobind is working on normal apply LinkedIn for Canva and Atlassian since they do not need account creation, just email • API changed by client so now easy apply linkedIn won't work • easy apply linkedin ◦ extension wont close after application sent ◦ after applying to a job app, review and apply buttons do not work	22:00 - 23:35	@Kathy Phan @Gobind Singh @Aqil Tuan Razali couldn't attend cause of work @Lawrence Seeto @Samuel Lim @Lachlan Butcher left at 23:02
30 Jul 2025	Standup at 10pm! • broken easy apply due to API changes, so we had to fix • Sam did cookies • Maybe add instructions/warning to review/apply buttons • Review → ⚠ This will stop at the final review page. You'll need to manually submit the application yourself.	22:00 - 23:37	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher

	• Apply → ! This will submit your application immediately. Make sure everything is filled correctly. This action cannot be undone.		
31 Jul 2025	Labs • CD/CI pipeline • Burndown chart - FIXED	13:00 - 15:00	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher
1 Aug 2025	Client meeting • no API changes so we dont need to fix • CD/CI → Kathy • create a temporary password and user can change it later !	2:45 - 3:15	@Kathy Phan @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher
Week 10			
4 Aug 2025	Merged a few branches and fixed conflicts <i>Branch: normal-apply-canva</i> LINKEDIN • Atlassian & Canva has issues with input fields → Gobind • Google doesn't have this though but resume is funky	22:00 - 00:36	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto left at 23:30 @Samuel Lim

- What we have: autofill of most fields, but up to resume

Branch: account-creation

SEEK

- Test account creation → **Lawrence**
- searches for create account/new user button else a sign in button using weightings (confidence)
- NSW Government is not working, try to Amazon

Branches: SEEKnormalapply, LocalStorageClear

- Clear local storage and user data completed → **Sam**
- Normal apply for Seek, detect + autofill + upload resume, completed
 - but doesn't work on Canva because urls are nested

Branch: linkedin-sign-in

LINKEDIN

- Workday has signup issues, need to verify email → **Lachlan**
- Try Amazon

Branch: feature/seek-quickapply → Aqil

SEEK

- sentinel flag for site persistence
- Seek autofill + cover letter upload
 - job extension not on external websites
 - progress bar integration to seek

@Lachlan

Butcher

left at 23:47

	• cover letter upload modal • 10 resume limit with modal popup <i>Branch: feature/CD-CI-integration → Kathy</i> • Added linting and removed commented code		
5 Aug 2025	Intro (2mins) → KATHY • Easy apply for LinkedIn (2 min) → LAWRENCE ◦ progress tab ◦ review and apply button warnings • Normal apply for LinkedIn ◦ Account creation for Workday (2min) → LACHLAN [2nd] ◦ <u>Google, Amazon, Microsoft?</u> → autofilling can be a button (3 min) → GOBIND [3rd] ▪ Past experience is not in faq • Easy apply for Seek (3min) → AQIL [4th] ◦ Cover letter implemented ◦ Resume 10 limit + deletion ◦ Detect and autofill fields → need to feed in job_faq • Normal apply for Seek (1.5min) → SAM [5th] ◦ May have a button to autofill for URLs with nested fields • Clear localStorage demo (1.5min) → KATHY Known limitations: • Account creation for popups/modals are looping • Resume upload for Google is impossible to automate • Account confirmation emails cannot be automated • SMS confirmations may also not be automated	21:40 - 22:30	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher

	• 2FA may also not be automated • URLs with nested fields cannot be reached for autofilling		
6 Aug 2025	Script for demo C	19:00 - 20:00	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Lawrence Seeto @Samuel Lim @Lachlan Butcher
7 Aug 2025	Limitations: • Found a bug in the backend where the address field would be empty sometimes and that causes a refresh Demo C! • we would have to let the client know that certain fields aren't able to be automated e.g. selecting dates, typing to find university	10:00 - 12:00 12:30 reconvene 13:00 - 15:00	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Samuel Lim @Lawrence Seeto came at 10:50 @Lachlan Butcher came at 11:26
8 Aug 2025	Client meeting to show our demo	15:45 - 16:30	@Kathy Phan @Gobind Singh @Aqil Tuan Razali @Samuel

			Lim @Lawrence Seeto @Lachlan Butcher
14 Aug 2025	Client meeting moved from Tuesday to Thursday as per request from client Helping client use the repo	16:00 - 17:00 17:00 - ~	@Kathy Phan left at 19:00 @Gobind Singh @Aqil Tuan Razali @Samuel Lim @Lachlan Butcher left at 18:45
